25X1A

1. This is [REDACTED] for Missions 1040 and 1041, flown on 26 October 1956. Duration and length of missions were:

1040 7:40 2895 nautical miles

1041 7:30 2895 nautical miles

Evaluation of both of these missions showed them to be both successfully completed, with high quality results both in photographic take and navigation.

25X1A

2. These missions completed the [REDACTED] flown by this detachment. In all, a total of seven fully trained [REDACTED] participated and were scored during the evaluation. Full analyses of all the missions has been made and the capability and reliability of all air crews has been clearly established.

25X1A

25X1A

3. A statistical resume of all [REDACTED] missions will be forwarded as a special [REDACTED] report for the entire [REDACTED] effort.

25X1A

4. No problems were encountered in obtaining required support from base and other agencies.

5. Weather was a negligible factor on these missions.

25X1A

6. Through out the [REDACTED] flight altitude was restricted to base plus 15 thousand feet. No flameouts were encountered on these last two missions.

25X1A

7. The training received during this [REDACTED] has been most beneficial to this detachment as it enabled all personnel to conform to the work schedule and procedures that would be employed when the detachment moves to its forward base.
